

A perfect opportunity for the

finishing resident

Hospitalists are the future of acute

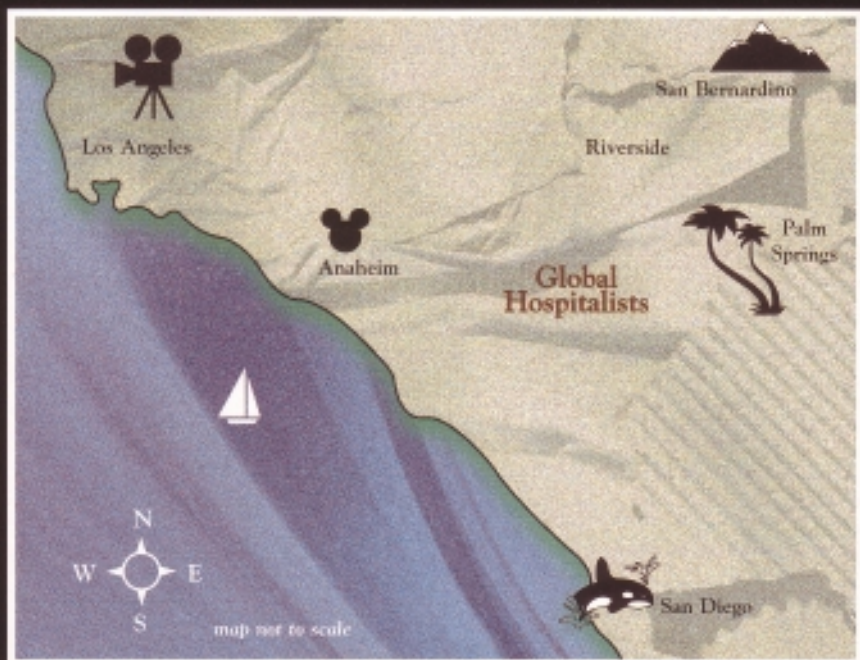

hospital care

Be a part of medicine's

newest specialty

Join us in Southern California for an excellent

career opportunity

Global Hospitalists Inc.

27830 Bradley Road

Sun City, CA 92586

1-888-228-2190

Global Hospitalists is looking for internists, cardiologists and pulmonologists to join us in Southern California for a unique career opportunity. You'll work full-time in a dynamic hospital environment to provide care to inpatients. These rewarding positions provide excellent opportunities for advancement and professional growth in an evolving new medical specialty.

Our management team has been in business for more than 15 years. Global Hospitalists Inc. is a subsidiary of Global Healthcare Management, a growing healthcare-management company that has more than 500,000 lives and eight hospitals under contract for hospitalist service.

What is a Hospitalist?

The hospitalist movement is growing in the United States, and Southern California is at the forefront. As a hospitalist, you will work full-time in the hospital setting with ample time off to enjoy your new surroundings. You will be a leader within the hospital setting in improving quality patient care and efficiency.

This will be the perfect opportunity to practice pure medicine. You will receive maximum patient contact with almost no bothersome paperwork. See your patients several times a day, changing treatment programs when necessary and updating your diagnosis.

You'll help patients by

- giving them convenient and quick access to professional quality care
- providing direct participation in their course of treatment
- facilitating timely communication among providers, family members and patients' primary care physicians

Where else can you receive maximum benefits without the hassle of referrals, waiting for OKs and fighting insurance groups? When you are off call, you are free. No worry about appointments, patient scheduling, paperwork or the other responsibilities of primary care practice.

You'll grow professionally by

- gaining greater expertise with specific medical conditions
- collaborating with a wide range of primary care physicians
- helping to define an evolving specialty

Enjoy an active lifestyle

While working at one of eight hospitals in Southern California's Inland Empire—the fastest growing region in the country—you'll be an hour's drive from beaches, desert resorts and snow-covered peaks that rise to more than 10,000 feet. Also within an hour's drive are several ski resorts and dozens of world-class golf courses.

Central location in Southern California

- Affordable housing
- A warm climate
- Excellent public and private schools
- Year-round recreation
